- A clone of the web-based word game, Wordle.
- GitHub Repo: github.com/cwedwards9/wordle-clone

WORK EXPERIENCE

Chmura Economics and Analytics - Cleveland, OH

November 2021 – Present

Front-End Developer

- Develop scalable and reusable user-facing interfaces based off designs created by our UX Designer
- Use JavaScript/TypeScript with AngularJS to integrate data from our APIs into new and current user-facing features
- Migrate and upgrade AngularJS components and services to Angular as we migrate our codebase to Angular
- Write semantic and accessible HTML that follows A11y guidelines
- Create unit tests for front end components and services
- Debug existing code across multiple browsers
- Collaborate with team members and stakeholders to improve code

Marcus Thomas LLC - Warrensville Heights, OH

June 2021 – August 2021

Front End Web Development Intern

- Worked with the UI Architect and Backend Developer to create a landing page for a client using HTML, SCSS/CSS, and JavaScript
- Configured and used task runners like gulp.js and Grunt for more efficient front-end development
- Attended check-ins and meetings for planning and collaborating with designers and developers
- Developed mobile friendly email newsletters using HTML and CSS within Salesforce Marketing Cloud
- Maintained and updated client websites using content management systems including Kentico
